Subject: RE: Can we get together tomorrow anytime from 10 -2 instead of today?

One other things to think about: Kent is using the info. collected through your meetings in the Study Plan, for example, in the Intro/Background. We need to figure a way to cite the information properly in that document. You will see the draft study plan today. Once the formal meeting minutes are finalized, we will need to agree on the correct format for the citation (e.g., should we call them "Meeting Minutes"? something else?). We don't have to decide now, it is just something to think about.

I really would like to accommodate this level of interest and engagement as best we can, and I also recognize we don't want a gigantic number of us to go to [REDACTED] I think given the level of interest and importance, that we should reach out to the [REDACTED] **Ex. 6 Personal Privacy (PP)** today to determine if they have any other processors that are local. (I am pretty sure we'll be going to [REDACTED] in [REDACTED] but a 2-3 hour drive and the need to do TAs etc might be prohibitive for some folks). Chris could you please give [REDACTED] a call this morning to begin to explore other local options for a mid-May tour? I also would like you guys to follow up with [REDACTED] to try to set up the field visits as well. We do need that clarification from ORD as soon as we can on whether sampling will be involved so we will know precisely what we are asking of the processors/field managers; at this point, we can just let [REDACTED] know that we are still determining whether we'd like samples to be collected at the sites we are visiting.

Thanks, I just worry that we will have too many people interested.

Hi Jackie,

I haven't heard back from [REDACTED] on the group size. I will let you know as soon as I do.

Thanks, and sorry. I am still working and I get in at 6:30 am.

So, now my Deputy AA, Bob Kavlock and his special assistant, Maureen Gwinn, may also want to go on the tour. Go figure. Please don't schedule around them, but here are some possible dates:

Friday April 29, Friday May 6, Monday May 9, and possibly May 12.

I do think we should check, though, to see if there is a limit. We might have to start turning people away (or charging).

The meeting today was very interesting and informative. I've been forwarding my slides from the other meetings to Kent, who has been using them to help craft the research so there is huge value added from these meetings. Thank you for the hard work.

Talk tomorrow.

Just saw this, sounds good, we'll send you an invite for 10:30am.

Best,
Chris

I need to go to another meeting now, unexpectedly. Sorry.
